OUR CASE

ABOUT US

JOYEE SPA PROFILE

JOYEE Spa is a mature manufacturers, the aggregation of product production, marketing and service, headquartered in Foshan city, Guangdong, China. We specializes in wellness and spa field and develops a series of popular products, such as outdoor hot tubs, Whirlpool outdoor, Jacuzzi and Swim spa pool. The past 20 years has witnessed our steady progress. Recently, our company scale is increasingly growing. The factory covers an area of 12,000 square meters and 185 staff has joined our working group. Therefore, it shows a giant leap in productivity. We could carry out over twenty thousands sets of hot tub per year. Today, a mature company goes hand in hand with a competitive market. We suppose it is quality and new design that we can only stand for.

Hence, in order to cater for market' s needs, we are struggling for work of quality and devoted to developing more new products. On the hardware side, we select reliable US Balboa control system/Canada Gekco control system and "LX" pump with CE and SAA certificates. We always put quality as the first consideration and all of our hot tub must pass 24 hours leaking test and function test before shipping.

Up till now, JOYEE Spa harvests hundreds of customers from various countries. More excitingly, they show respect and admiration for our services. All of them really provide fuels that will exactly drive us forward. We believes that quality is the lifeline of a brand and therefore has put quality first since its very inception. In the days to come, we will implement this to the end.

Welcome to be our partner, we will be your strongest backing in China.
